

DISTRICT REPORTS.

320

8. Market how supplied.
9. Progress of agricultural operations, state of standing crops, prospects and probable out-turn of the harvests, serious damage done to crops by insects or other natural calamities.
10. Prospects of season, tracts in which rainfall has been insufficient, areas affected by scarcity, number of people under relief and state of food stock.
11. Remarks on the condition of agricultural stock, failure of pasturage of fodder, etc.

BANGALORE.

8. Well supplied.
9. (1) Sugar seedling are being planted in some parts of the District.
- (2) Paddy crops and sugarcane which are standing crops are in good condition.
10. (1) Public Health is generally good, except for the prevalence of Cholera in Rampur and Kankanahally Taluks. Bannikuppe, Bidadi Hobli, Ramanagaram Taluk and Kasaraghatta in Nelamangala Taluk. It is ascertained that cholera is being noted against pilgrims returning from Thirupathi. Necessary action is taken to prevent the spread of the above disease among general population.
- (2) Cattle are reported to be healthy.
11. (1) Water and fodder are available.
- (2) Coolies find sufficient labour.

KOLAR.

8. Moderately supplied.
9. (1) *Seeds sown*.—There was rainfall in most of the taluks and fields are being ploughed.
- (2) *Standing crops*.—Kar ragi, Vaishaky paddy and sugarcane are all reported to be fair in some taluks.
- (3) *Crops harvested*.—Nil.
10. There was rain fall during the week in Kolar, Bangarpet, Chintamani, Sidlaghatta, Chikballapur, Goribidnur, Malur and Gudibanda Taluks. Fodder and water are available for cattle.
- People and cattle are reported to be generally healthy but for prevalence of Blackquarter in parts of Malur Taluk. Preventive measures are being taken to check the spread of the diseases.

TUMKUR.

8. Markets are fairly well supplied.
9. *Seeds sown*.—Ploughing operations are going on in all the parts of the District. Transplantation of paddy is being done in some parts of Kunigal Taluk.
- Standing crops*.—Paddy and sugarcane are reported to be in good condition.
- Crops harvested*.—Paddy in parts of Chiknaikanahalli, Sira and Gubbi Taluks and sugarcane in parts of Gubbi Taluk.
10. *Public Health*.—Public Health is generally good except for the prevalence of Cholera at Kundihalli in Kunigal Taluk and the latest report from the Assistant Surgeon is that it is not Cholera. Small-pox is prevailing in Gowdanahalli in Chiknaikanahalli Taluk. Necessary preventive action is reported to have been taken to check the epidemic.
11. Cattle are reported to be generally healthy except for the prevalence of Blackquarter in Beerasandra Village of Tiptur Taluk, Ramaghatta and Hosakere Villages in Chiknaikanahalli Taluk and Beladhara, Kenchanapalya, and Guleharivi Villages in Tumkur Taluk. Preventive measures are reported to have been taken in the matter to check the spread of the epidemic.
- Water and fodder are available. Labour is available for cooly classes.

MYSORE.

8. It is reported that the markets are normally well supplied in all the taluks of the District during the week.
- Seeds sown*.—It is reported that sowing of jola is in progress in the taluks of Mysore, Heggaddevankote Gundlupet, Nanjangud, and T.-Narasipur Taluks.

Standing crops.—Such as jola, mulberry, and sugarcane are reported to be fairly in good condition.

9. *Crops harvested*.—Nil.

- (1) Prospects of the season are fair.
- (2) There was fairly good rainfall in Chamarajanagar and Heggaddevankote Taluks and it was insufficient in Mysore, Hunsur and Nanjangud Taluks.
- (3) Both cooly and agricultural classes are finding sufficient employment all over the District.
- (4) Sufficient quantities of foodgrains are made available all over the District.
10. Public Health is generally good except for the prevalence of Cholera in a few villages of Nanjangud and Gundlupet Taluks and plague in two villages of Nanjangud Taluk. Necessary preventive and remedial measures are being taken to check the spread of the epidemics.
11. Cattle are reported to be generally healthy. Sufficient quantities of water and fodder are available throughout the District.

MANDYA.

8. Well supplied.
9. The standing crops of sugarcane in Vesvesvaraya Canal Area and Kar-ragi, jola, and pulses in all the taluks of the District are reported to be in good condition.
10. Prospects of the season are reported to be good.
11. The public health is reported to be generally good throughout the District except for the prevalence of cholera in some of the villages of Dudda hobli of Mandya taluk, Seelagere hobli of Krishnarajpet taluk and in certain parts of Pandavapura and Srirangapatna Taluks of the District and small-pox is Boppagowdanapura hobli of Malvalli Taluk. Preventive measures have been taken in this behalf to check the spread of the epidemic.
- Cattle are reported to be healthy in all the taluks. Water and fodder are reported to be available in sufficient quantities.

HASSAN—Not Received.

SHIMOGA.

8. Well supplied.
9. Ploughing operation is going on. The standing crop of Sugar cane and cotton is in good condition. The summer paddy and ragi crops in Bhadravathi Taluk are also in good condition. Paddy is being sown in Hosanagar Taluk.
10. Prospect of the season was generally good. There was outbreak of plague in Channagiri Taluk. Preventive measures are reported to have been taken.
11. Cattle were healthy in all taluks except in Thirthahalli Taluk where Rinderpest is reported to have been broken.
- Fodder and Water were available.

CHIKMAGALUR.

8. Markets were fairly well supplied, but the prices of essential commodities continued to be very high.
9. (i) *Standing crops*.—Sugarcane in Chikmagalur, Kadur, Tarikere and Narasimharajapura Taluks.
- (ii) *Seeds Sown or Transplantation*.—Sugarcane in Mudigere Taluk.
- (iii) *Crops harvested*.—Sugarcane in Chikmagalur and Tarikere Taluks.
- Water, fodder and labour were sufficiently available throughout the District.
10. Public health was generally good except for the prevalence or outbreak of Cholera at Hirehallur, Kadur Taluk, in Kadur Town and in Gondadahalli and Mugali Villages in Tarikere Taluk. Needful action has been taken by the Public Health Department to bring the epidemic under control.

11. Cattle were generally healthy except for the attack of Blackquarter disease in Aralikoppa Village, Balehonnur Hobli and Rinderpest in Melinaharandur Village and Kankanahalli, Hamlet of Bettadabalu Village of

Koppa Taluk. Effective measures have been taken against the diseases.

CHITALDRUG.

8. Markets are well supplied except controlled commodities.

9. *Seeds Sown.*—Gidda ragi is being sown in Chellakere Taluk.

Standing Crops.—Sugarcane in Hiriur Taluk, paddy in Hiriur, Hosadurga, Challakere and Molakalmuru Taluks, groundnut in Hiriur Taluk, cotton in Hiriur and Davangere Taluks are reported to be in good condition.

Crops harvested.—Cotton in Hiriur and Davangere Taluks, paddy in Challakere and Molakalmuru Taluks is reported to be under harvest.

10. Cooly classes are finding sufficient labour.

11. Cattle are reported to be healthy. Water and fodder are available. Public Health is generally good except for the prevalence of small-pox in Hosadurga and Chellakere Taluks. Precautionary measures are being adopted to check the spread of the disease.

BANGALORE.

Dated 16th April 1951.

N. V. SIDDALINGAPPA,
For Director.

MYSORE STATE DEPARTMENT OF PUBLIC HEALTH.

NOTE ON THE STATE OF PUBLIC HEALTH IN MYSORE STATE, WEEK ENDED THURSDAY, APRIL 26, 1951.

A total of 11 attacks with 6 deaths from Plague was returned from 4 villages in 4 taluks, in 3 districts during the week against 3 attacks with 1 death in the previous week. Cities of Bangalore, Mysore and Kolar Gold Field Area reported free from Plague. Comparative figures for the corresponding week in 1950 and 1949 were 2 attacks with nil death and nil attack with nil death respectively.

A total of 85 attacks with 28 deaths from Small-pox were reported from the Cities of Bangalore and Kolar Gold Fields; and from the towns of Channarayana, Chintamani, Jagalur and Shimoga; and from the taluks of Bagepalli, Chikmagalur, Mandya, Mulbagal, Molakalmuru, Pavagada, Siranipatna and Shimoga.

Sixty-two attacks with 54 deaths from Cholera were reported from the town of Trikeri and from the taluks of Chamarajanagar, Gundlupet, Holalkere, Hole-Narsipur, Krishnarajpet, Mandya, Pavagada, Periyapatna and Saklespur.

The State remained free from Influenza and Relapsing Fever.

The total mortality for Bangalore Corporation amounted to 230 (62 in hospitals) for 7 days representing a calculated death-rate of 23.4 (17.1 excluding hospital deaths) per mille of population (annual basis) as against 24.0 (17.7 excluding hospital deaths) for the corresponding week of last year. Classified according to causes the deaths numbered 3 under Small-pox, 3 under Typhoid, 5 under Other Fevers, 35 under Dysentery and Diarrhoea and 183 under All Other Causes. The reported mortality was low.

The total mortality for Mysore City was 101 (54 in hospital) for 7 days representing a calculated death-rate of 26.9 (12.5 excluding hospital deaths) per mille of population (annual basis) as against 27.5 (7.5 excluding hospital deaths) for the corresponding week of last year. Classified according to causes the deaths were: Small-pox 1, Malaria 4, Other Fevers 12, Dysentery and Diarrhoea 11 and All Other Causes 73. The reported mortality was very low.

There were 37 deaths (34 in hospitals) for 7 days from all causes in Kolar Gold Field Area equivalent to a calculated death-rate of 10.4 (0.8 excluding hospital deaths) per mille of population (annual basis) as against 4.3 (2.6 excluding hospital deaths) for the corresponding week of last year. Classified according to causes the deaths numbered 1 under Other Fever, 4 under Dysentery and Diarrhoea and 32 under All Other Causes. The reported mortality was very very low.

DISTRICT REPORTS.

324

8. Market how supplied.

9. Progress of agricultural operations, state of standing crops, prospects and probable out-turn of the harvests, serious damage done to crops by insects or other natural calamities.

10. Prospects of season, tracts in which rainfall has been insufficient, areas affected by scarcity, number of people under relief and state of food stock.

11. Remarks on the condition of agricultural stock, failure of pasturage of fodder, etc.

BANGALORE.

8. Well supplied in all the taluks.

9. (1) Sugarcane seedling and paddy both in the few parts of the district are in good condition.

(2) Ploughing operation is going on in some parts of the District.

(3) Harvest Nil.

(4) Sowing of groundnut is going on in some parts of the Magadi Taluk. More rains are required in all the taluks of the District.

10. (1) Public Health is generally good, except for the out break of the small-pox in Makli Village, Channapatna Taluk and Gattahalli, Harohalli Hobli, Kankanhalli Taluk. Prevalence of plague in Bannikuppe, Bidadi Hobli, Ramnagar Taluk and Kodihalli in Kankanhalli Taluk are not yet subsided. Necessary measures to prevent the spread of the above two diseases are taken.

11. (1) Cattle are reported to be generally healthy.

(2) Water and fodder are available.

(3) Coolies find sufficient labour.

KOLAR.

8. Moderately supplied.

9. (1) *Seeds sown.*—There was rainfall in most of the taluks and fields are being ploughed and prepared for sowing.

(2) *Standing crops.*—Kar ragi, Vaishaky paddy and sugarcane are reported to be fair in some taluks.

(3) *Crops harvested.*—Nil.

There was rain fall during the week in Kolar, Bangarpet, Sidlaghatta, Chikballapur, Bagepally, Goribidnur, Malur, Srinivasapur and Gudibanda Taluks.

10. Fodder and water are available for cattle.

11. People and cattle are generally reported to be healthy but for prevalence of Small-pox in parts of Srinivasapur Taluk and Blackquarter in parts of Mulbagal Taluk. Preventive measures are being taken to check the spread of the diseases.

TUMKUR—Not Received.

MYSORE.

8. It is reported that the markets are normally well supplied in all the taluks of the District during the week.

Seeds sown.—It is reported that jola was being sown in the taluks of Krishnarajanagar and Heggadadevankote and ragi Krishnarajanagar, Heggadadevankote and Nanjangud Taluks.

Standing crops.—jola, sugarcane, mulberry and castor are reported to be fairly in good condition.

9. *Crops harvested.*—Nil.

(1) Prospects of the season are fair.

(2) There was fairly good rainfall in all the taluks of the District except in Chamarajanagar and Hunsur and in some parts of Gundlupet Taluk.

(3) Both cooly and agricultural classes are finding sufficient employment all over the District.

(4) Sufficient quantities of foodgrains are made available all over the District.

10. Public Health is reported to be generally good except for the prevalence of plague in a few villages of Heggadadevankote and Nanjangud Taluks and Cholera in a few villages of Nanjangud Taluk. Necessary preventive and remedial measures are being taken to check the spread of the epidemics.

11. Cattle are reported to be generally healthy. Sufficient quantities of water and fodder are available throughout the District.

MANDYA.

8. Well supplied.

9. The standing crop of sugarcane in Visvesvaraya Canal Area and Kar-ragi, jola and pulses in all the taluks of the District are reported to be in good condition.

10. Prospects of the season are reported to be satisfactory.

11. The public health is reported to be generally good throughout the District except for the prevalence of cholera in some parts of Mandya Taluk, i.e., Kasaba, Kothathi and Dudda hoblis and in some villages of Pandavapura Taluk. Preventive measures have been taken in this behalf to check the spread of the epidemic.

Cattle are reported to be healthy in all the taluks. Water and fodder are reported to be available in sufficient quantities.

HASSAN.

8. Well supplied.

9. Action is being taken to sow paddy and ragi throughout the District. Milling of sugarcane is in progress. No damage has been done to the crops.

10. The prospects of the season are reported to be fair. Rain is still needed all over the District.

11. The cattle were healthy and fodder available.

SHIMOGA.

8. Well supplied.

9. Ploughing operations are going on. Paddy was sown in Hosanagar Taluk. The standing crop of Sugarcane is generally in good condition. Summer paddy and ragi crops are generally in good condition in Bhadravathi Taluk.

10. Prospect of the season was generally good. There was prevalence of Small-pox in Honnali Taluk. Preventive measures were taken.

11. Cattle were healthy. Water and fodder were available.

CHIKMAGALUR.

8. Markets were fairly well supplied, but the prices of essential commodities continued to be very high.

9. (i) *Standing crops.*—Sugarcane in Chikmagalur, Kadur, Tarikere and Narasimharajapura Taluks.

(ii) *Seeds sown or Transplantation made.*—Paddy in Mudigere Taluk and Narasimharajapura Sub-Taluk.

(iii) *Crops harvested.*—Sugarcane in Kadur Taluk, Water Fodder and Labour were sufficiently available throughout the District.

10. Public health was generally good except for the prevalence of cholera at Hirenalur, Kadur Taluk from which 2 deaths occurred, and at Shivane and Mugali Villages, Tarikere Taluk. At Shivani also one death occurred on account of cholera. Necessary action has been taken by the Public Health Department.

11. Cattle were generally healthy except for the attack of Blackquarter in Balehonnur Hobli, Narasimharajapura Sub-Taluk, and in parts of Koppa Taluk. These infected areas, within a radius of 5 miles, have been notified under the Cattle Diseases Act prohibiting the movement etc., of cattle. The Veterinary Department has also been requested to take preventive measures early.

CHITALDRUC.

8. Markets are well supplied except controlled commodities.

9. *Seeds Sown.*—Giddaragi is being sown in Chellakere Taluk.

Standing Crops.—Sugarcane in Hiriyur Taluk, paddy in Hiriyur, Challakere, Hosadurga and Molakalmuru Taluks, Groundnut in Hiriyur Taluk, cotton in Hiriyur and Davangere Taluks are reported to be in good condition.

Crops harvested.—Cotton in Uriyur and Davangere Taluks, paddy in Challakere and Molakalmuru Taluks groundnut in Hiriyur Taluk in a small scale is reported to have been harvested.

10. Cattle are reported to be generally healthy throughout the District except in Vaddikere Village in Hiriur Taluk where Sappe disease is prevailing. The Veterinary Department is reported to have been addressed to check the spread of the disease.

Public Health is generally good except for the prevalence of small-pox in Hiriur and Chellakere Taluks. Precautionary measures are being adopted to check the spread of the disease.

OFFICE OF THE REVENUE
COMMISSIONER IN MYSORE,
Bangalore,
Dated 15th May 1951.

V. VEDAVYAS ACHARYA,
Revenue Commissioner

MYSORE STATE DEPARTMENT OF PUBLIC HEALTH.

NOTE ON THE STATE OF PUBLIC HEALTH IN MYSORE
STATE FOR THE WEEK ENDED THURSDAY,
THE 3RD MAY 1951.

A total of 19 attacks with 8 deaths from Plague was returned from 1 village in 1 taluk, in 1 district during the week against 11 attacks with 6 deaths in the previous week. Cities of Bangalore, Mysore and Kolar Gold Field area reported free from Plague. Comparative figures for the corresponding week in 1950 and 1949, were nil attack with nil death and 4 attacks with 3 deaths, respectively.

A total of 64 attacks with 18 deaths from Small-pox were reported from the Cities of Bangalore, and Mysore; and from the town of Shimoga; and from the taluks of Bagepalli, Bangalore South, Chikmagalur, Harihar, Maddur, Malavalli, Mulbagal and T. Narasipur.

Eighty attacks with 47 deaths from Cholera were reported from the Corporation of Bangalore; and from the town of Turuvekere; and from the taluks of Bangalore South, Holalkere, Kankanhalli, Mandya, Mudigere, Nanjangud, Nelamangala, Ramanagaram and Seringapatam.

The State remained free from Influenza and Relapsing Fever.

The total mortality for Bangalore Corporation amounted to 216 (43 in hospitals) for 7 days representing a calculated death-rate of 22.0 (17.6 excluding hospital deaths) per mille of population (annual basis) as against 23.7 (19.0 excluding hospital deaths) for the corresponding week of last year. Classified according to causes the deaths numbered 1 under Malaria, 1 under Typhoid, 4 under Other Fevers, 37 under Dysentery and Diarrhoea and 173 under All Other Causes. The reported mortality was low.

The total mortality for Mysore City was 54 (18 in hospitals) for 7 days representing a calculated death-rate of 14.4 (9.6 excluding hospital deaths) per mille of population (annual basis) as against 22.3 (17.7 excluding hospital deaths) for the corresponding week of last year. Classified according to causes the deaths were: Typhoid 1, other Fevers 5, Dysentery and Diarrhoea 9 and All Other Causes 39. The reported mortality was very very low.

There were 30 deaths (1 in hospital) for 5 days from all causes in Kolar Gold Field area equivalent to a calculated death-rate of 11.9 (11.5 excluding hospital deaths) per mille of population (annual basis) as against 16.2 (14.3 excluding hospital deaths) for the corresponding week of last year. Classified according to causes, the deaths numbered 3 under Other Fevers, 8 under Dysentery and Diarrhoea and 19 under All Other Causes. The reported mortality was very low.

T. CHANDRASEKHARAIYA,
Director.

8. Market how supplied. 327 33
9. Progress of agricultural operations, state of standing crops, prospects and probable out-turn of the harvests, serious damage done to crops by insects or other natural calamities.
10. Prospects of season, tracts in which rainfall has been insufficient, areas affected by scarcity, number of people under relief and state of food stock.
11. Remarks on the condition of agricultural stock, failure of pasturage of fodder, etc.

BANGALORE.

8. Well supplied.
9. (1) Ploughing operation is going on in some parts of the District.
- (2) Harvest nil.
- (3) Sugarcane seedling and paddy crop in some parts of the district are in good condition.
10. (1) Public Health is generally good, except for the prevalence of cholera in Yelachewadi, Moralewadi Hobli, Kankanahalli Taluk. Attacks 2—deaths 2. One death is reported near Bytohalli, Ramanagaram Taluk which is suspected to be due to cholera. Action is taken to prevent the spread of the above disease.
- (2) Cattle are reported to be generally healthy.
11. (1) Water and fodder are available.
- (2) Coolies find sufficient labour.
3. More rains are required in the Taluks of Bangalore, Hoskote, Mandya, Channapatna, Anekal and Ramanagaram.

KOLAR.

8. Moderately supplied.
9. (1) *Seeds sown*.—Nil.
- Ploughing operations are in progress.
- (2) *Standing crops*.—Irrigated ragi and Vaishaky paddy are reported to be fair.
- (3) *Crops harvested*.—Irrigated ragi and Vaisakhya paddy are being harvested.
- There was rain fall during the week in all the Taluks.
10. Fodder and water are available for cattle.
11. People and cattle are reported to be healthy but for prevalence of Blackquarter in some parts of Mulbagal Taluk. Preventive measures have been taken to check the spread of the epidemic by the Animal Husbandry Department.

TUMKUR.

8. Fairly well supplied.
9. *Seeds sown*.—Groundnut, thill, greengram, bengalgram in parts of Gubbi and Chiknaikanhalli and Tiptur Taluks. All over the District ploughing operations are going on.
- Standing crops*.—Paddy and sugarcane are in good condition.
- Crops harvested*.—Paddy in parts of Gubbi, Pavagada, Koratagere, Sira and Tumkur Taluks and ragi in parts of Koratagere Taluk.
10. *Public Health*.—Public Health is generally good except for the prevalence of small-pox in round about villages of Gowdanahalli and Nadihalli in Chiknaikanhalli Taluk, in some of the villages in Pavagada Taluk, Kowthmaranahalli, Gundagal and Bommenahalli Villages in Tumkur Taluk. It is reported that there was an outbreak of cholera at Cheelagonahalli village in Koratagere Taluk and the same subsided. Needful action is reported to have been taken to check the spread of the epidemics.
11. Cattle are reported to be generally healthy except for the prevalence of Anthrax in Chicknettagunte Village, Gubbi Taluk, and Blackquarter in Siddalingapalya, hamlet of Kuruvelu Village in Tumkur Taluk. Needful measures are reported to have been taken to check the spread of the epidemic.
- Water and fodder are available. Labour is available for cooly classes.

8. It is reported that the markets are normally well supplied in all the taluks of the District during the week.
- Seeds sown*.—It is reported that ragi was sown in the taluks of Heggaddevankote, Krishnarajanagar and Nanjangud; and jola in Krishnarajanagar Taluk.
- Standing crops*.—Jola, sugarcane, mulberry, castor, groundnut and cotton are reported to be fairly in good condition.

9. Crops harvested.—Nil.

- (1) Prospects of the season are fair.
- (2) There was fairly good rainfall in all the taluks of the District during the week.
- (3) Both cooly and agricultural classes are finding sufficient employment all over the District.
- (4) Sufficient quantities of foodgrains are made available throughout the District.
10. Public Health is generally good except for the prevalence of plague in a few villages of Nanjangud and Heggaddevankote Taluks and Cholera in a few villages of Chamaraajanagar, Krishnarajanagar, Gundlupet and Nanjangud Taluks. Necessary preventive and remedial measures are being taken to check the spread of the epidemics.
11. Cattle are reported to be generally healthy except for the prevalence of anthrax in one village of Chamaraajanagar Taluk. Necessary preventive and remedial measures are being taken to check the spread of the epidemic. Sufficient quantities of water and fodder are available throughout the District.

MANDYA.

8. Well supplied.
9. The standing crop of sugarcane in Visvesvaraya Canal Area and kar-ragi and paddy, jola and pulses in all the taluks of the District are reported to be in good condition.
10. Prospects of the season are reported to be satisfactory.
11. The public health is reported to be generally good throughout the District except for the prevalence of cholera in some parts of Mandya Taluk, i.e., in Kasaba, Kothathi Dudda and Basaral Hoblis and in some villages of Maddur, Malavalli, Pandavapura and Krishnarajapet Taluks. Preventive measures are reported to have been taken in all these taluks to check the spread of the epidemic gatherings have been stopped.
- Cattle are reported to be healthy in all the taluks. Water and fodder are reported to be available in sufficient quantities.

HASSAN.

8. Well supplied.
9. Throughout the District agricultural operations are in progress. Paddy and ragi are sown in some parts of the District. Sugarcane is reported to be in good condition. No damage has been done to the crops.
10. The prospects of the season are reported to be fair.
11. The cattle were healthy and fodder available.

SHIMOGA.

8. Well supplied.
9. Ploughing operations are going on. Summer paddy and ragi are being harvested in Bhadravathi Taluk. The standing crop of sugarcane is in good condition.
10. Prospect of the season was generally good. Cooly class people get sufficient labour.
11. Cattle were healthy. Water and fodder were available.

CHIKMAGALUR.

8. Markets were fairly well supplied, but the prices of essential commodities continued to be very high.
9. (i) *Standing crops*.—Sugarcane in Chikmagalur, Kadur, Tarikere Taluks and in Narasimharajapura Sub-Taluk.
- (ii) *Seeds sown or Transplantation made*.—Sugarcane and paddy in Chikmagalur and Narasimharajapura Taluks.

and paddy in Mandya Taluk. Agricultural operations (Ploughing have commenced in all places).

(iii) *Crops harvested*.—Sugarcane in Chikmagalur and Kador Taluks.

10. Public health was generally good except for the prevalence of cholera at Hironallur, Kador Taluk, and at Bukkambudhi and Narnapura and other places in Tarikere Taluk. Necessary measures have been taken by the Public Health Department and the situation is better now, the epidemic being brought well under control.

11. Cattle were generally healthy except for the prevalence of "Rinderpest" at Panchanahally, Kador Taluk, and Bettadaholalu and other villages in, Koppa Taluk and "Blackquarter" in Balehonnur Hobli. The Department of Animal Husbandry has been addressed to take preventive measures and the areas have been notified as infected areas under the Cattle Diseases Act, 1949, prohibiting the movement of cattle from or into these infected areas.

Water, Fodder and Labour were sufficiently available.

CHITALDRUG.

8. Markets are well supplied except controlled commodities.

9. *Seeds Sown*.—Giddaragi is being sown in Chellakere Taluk.

Standing Crops.—Sugarcane in Hiriyyur Taluk, paddy in Hiriyyur, Challakere, Molakalmuru and Hosadurga Taluks, Groundnut in Hiriyyur Taluk, cotton in Davangere Taluk are reported to be in good condition except Steniborn disease to the paddy in some villages of Challakere Taluk.

Crops harvested.—Cotton in Davangere Taluk, paddy in Challakere and Molakalmuru Taluks, groundnut in Hiriyyur Taluk on a small scale is reported to be harvested.

10. Cooiy classes are finding sufficient labour.

11. Cattle are reported to be generally healthy throughout the District except in Chickamadhure Village, Challakere Taluk where Blackquarter is prevailing. The Veterinary Department is reported to have been addressed for taking immediate steps to check the spread of the disease. Public Health is generally good except for the prevalence of small-pox in Hariabbe Village of Hiriyyur Taluk. Precautionary measures are being adopted to check the spread of the disease.

OFFICE OF THE REVENUE
COMMISSIONER IN MYSORE,
Bangalore,
Dated 22nd May 1951.

V. VEDAVYAS ACHARYA,
Revenue Commissioner.

OFFICE OF THE DIRECTOR OF ANIMAL HUSBANDRY IN MYSORE, BANGALORE.

(HEALTH OF LIVE-STOCK DURING APRIL 1951).

Notification dated 14th May 1951.

In their order of severity, outbreaks of Rinderpest, Black-quarter, Anthrax, Haemorrhagic-septicemia, Foot and Mouth, Sheep-pox, Ranikhet, and Contagious-goat pleuro-pneumonia were encountered in the State during April 1951. Altogether 135 villages were reported to have been affected by one or the other of the several contagious and infectious diseases, as against 177 villages during the previous month. The number of outbreaks was highest in Mysore, Kolar and Bangalore Districts, while Chikmagalur, Hassan and Mandya were least affected. These diseases accounted for 678 attacks, of which 519 succumbed, as against 920 attacks and 656 deaths during the previous month. The Departmental staff conducted 21,265 preventive inoculations and vaccinations against all the above diseases except Foot and Mouth disease. In the absence of a reliable method of vaccinator intervention other prophylactic measures were adopted against Foot and Mouth disease.

Twelve outbreaks of Rinderpest of which three were among sheep and goats were registered in Kador, Narasimharajapura, Koppa, Honnali and Chitaldrug Taluks accounting for 94 attacks among cattle and 125 among sheep, of which 58 cattle and 70 sheep succumbed. The spread of Rinderpest during the month is attributed to the infection at Rampur Cattle Fair in Honnali Taluk during February last. Prompt measures of control are being undertaken by the Department to check its further spread and so far 1,633 cattle and 905 sheep in the infected villages and 6,481 cattle and 249 sheep in 29 neighbouring villages have been protected against this disease.

Diseases caused by internal parasites were reported from 94 villages resulting in 63 deaths as against 86 villages accounting for 46 deaths during the previous month. The special staff attached to the parasitic disease control units of the Department dosed 6,808 animals as against 6,238 animals during the previous month.

The rest of the live-stock remained free from diseases during the month, and fodder and water were generally available throughout the State.

DEPARTMENT OF INDUSTRIES AND COMMERCE IN MYSORE, BANGALORE.

Statement showing the Wholesale and Retail prices in Bangalore City and other important Trade Centres in the State.

BANGALORE,

-39 Dated 14th May 1951.

N. V. SIDDALINGAPPA,
For Director.

MYSORE STATE DEPARTMENT OF PUBLIC HEALTH.

NOTE ON THE STATE OF PUBLIC HEALTH IN MYSORE
STATE FOR THE WEEK ENDED THURSDAY,
THE 10TH MAY 1951.

A total of 47 attacks with 24 deaths from Plague was returned from 8 villages in 4 taluks, in 1 district during the week against 19 attacks with 8 deaths in the previous week. Cities of Bangalore, Mysore and Kolar Gold Field area reported free from Plague. Comparative figures for the corresponding week in 1950 and 1949, were nil attack with nil death and 9 attacks with 3 deaths, respectively.

A total of 35 attacks with 5 deaths from Small-pox were reported from the Cities of Bangalore and Kolar Gold Field; and from the towns of Pavagada and Tarikere; and from the taluks of Arkalgud, Harihar, Malavalli, Pavagada, Periyapatna, Srinivasapur and Sidlaghatta.

Ninety-five attacks with 59 deaths from Cholera were reported from the Corporation of Bangalore; and from the towns of Kadur and Nanjangud; and from the taluks of Bangarpet, Chamarajanagar, Gundlupet, Holalkere, Magadi, Mandya, Nanjangud, Pandavapura, Ramanagaram, Srirangapatna and Tarikere.

The State remained free from Influenza and Relapsing Fever.

The total mortality for Bangalore City amounted to 193 (51 in hospitals) for 7 days representing a calculated death-rate of 19'6 (14'4 excluding hospital deaths) per mille of population (annual basis) as against 28'1 (21'4 excluding hospital deaths) for the corresponding week of last year. Classified according to causes the deaths numbered 5 under Typhoid, 8 under Other Fevers, 35 under Dysentery and Diarrhoea and 145 under All Other Causes. The reported mortality was low.

The total mortality for Mysore City was 59 (33 in hospitals) for 5 days representing a calculated death-rate of 22'0 (8'2 excluding hospital deaths) per mille of population (annual basis) as against 11'4 (6'0 excluding hospital deaths) for the corresponding week of last year. Classified according to causes the deaths were: Malaria 2, Typhoid 2, other Fevers 10, Dysentery and Diarrhoea 9 and All Other Causes 36. The reported mortality was low.

There were 46 deaths (4 in hospitals) for 5 days from all causes in Kolar Gold Field area equivalent to a calculated death-rate of 18'2 (16'7 excluding hospital deaths) per mille of population (annual basis) as against 16'2 (14'3 excluding hospital deaths) for the corresponding week of last year. Classified according to causes, the deaths numbered 6 under Other Fevers, 11 under Dysentery and Diarrhoea and 29 under All Other Causes. The reported mortality was very low.

T. CHANDRASEKHARAIYA,
Director.
